Marquette, MI 49855

Dear Mr. Dennis:

The Emergency Response Section received the attached information referral from our RCRA program. It concerns several alleged environmental problems at Michigan Department of Transportation (MDOT) sites (see 9/22/87 letter to Ms. Shirlee Brauer). I would like to discuss your evaluation of MDOT spill prevention plans, oil spill clean up operations, hazardous materials spill reporting, and removal actions at the sites noted in the attached reports.

Because it involves a sister state agency, I thought maybe your department would be more aware of the current conditions and/or would know where we might be able to obtain the latest information.

Your advice on this matter is appreciated. Please contact me at (313) 675-3178, so we can discuss this further. Thank you for your time and help.

Sincerely,

Ross E. Powers, Chief
Response Section I
